## **NEWS FROM RANCHO SANTA FE TECHNOLOGY**

### **RANCHO SANTA FE TECHNOLOGY SELECTED BY BROWN AND CALDWELL FOR SERVICE**

Brown and Caldwell, a major environmental engineering firm headquartered in Walnut Creek, California and with offices across the nation, has selected Rancho Santa Fe Technology to provide network administration and desktop support for their offices in Southern California. The network administration will include support in the server room areas of the B&C offices. This support will include LAN administration, email coordination and help desk functions with hardware and software. Rancho Santa Fe Technology will also provide maintenance and repair to all desktops as well as be responsible for moves, adds, and changes for all Brown and Caldwell personnel throughout the greater Los Angeles and San Diego metropolitan areas.

#### **About Rancho Santa Fe Technology, Inc.**

A leading communications contractor in the western states, Rancho Santa Fe Technology is headquartered in San Diego. The firm specializes in installation, maintenance, repair, and upgrade to computer networks and their equipment. It is focused on providing customers with an essential suite of services in interrelated areas; providing service level maintenance and repair contracts for distributed network products for both wide area and local area networks (WANs and LANs) and building connectivity through the implementation of voice/data structured cabling and the roll-out of new enterprise wide data equipment technology. The company was named one of the "25 Top Emerging Technology Companies in San Diego" and received the "Anderson Award for exceeding customer expectations". The telephone number is 858-565-7224. Visit the company's website at [www.rsft.com](http://www.rsft.com).
